Item No:	Page and Paragraph No:	Comment:	Reason:	Recommendation:	AIR-100 Disposition: See Below
1.	1-3	[PUBLIC COMMENT] The first part of the sentence seems to be an incomplete/unclear thought: "This AC is effective (INSERT EFFECTIVE DATE OF FINAL RULE) the day changes to Production Certificates and Approvals;...".	It is assumed that this is interim text that will be updated appropriately for the AC's publication.		Adopted. This sentence is clarified in the current revision and grammatically correct [27JAN15]
2.	1-4.d	[PUBLIC COMMENT] Typographical error.	Change "services conforms" to "services conform".		Adopted. [27JAN15]
3.	1-7.b(2)	[PUBLIC COMMENT] For PMA ODA holders, the applicant submits the letter of application to the ODA, not the MIDO.	Consider adding ODA-related guidance.		Partially Adopted. ODAs follow their own, FAA approved, quality manual. We will not add ODA guidance, but will add FAA Orders 8000.95 and 8100.15 to the related documents as reference. [27JAN15]
4.	2-5	[PUBLIC COMMENT] Reference to Section 21.1(b)(10) is incorrect. Section 21.1(b) does not have a subsection (10), nor does it define "supplier".	Revise to include correct information.		Non-Concur. The reference is correct with the new rule language. [27JAN15]
5.	2-17 and 2-17(b) and Appendix E Paragraphs 1.a and 1.b	[PUBLIC COMMENT] References Section 21.137(o). 21.137(o) does not exist.	Revise to show correct reference.		Non-Concur. The reference is correct with the new rule language. [27JAN15]
