

Federal Aviation Administration

Memorandum

Date: November 14, 2014

To: See Distribution List

From: David Hempe, Manager, Design, Manufacturing, & Airworthiness
Division, AIR-100 *DM*

Prepared by: Tony Jopling, Operational Oversight Policy Branch, AIR-140

Subject: Deviation to Federal Aviation Administration (FAA) Order 8100.8D:
Three-Month Extension for Individuals Required to Complete Structures and
Electrical Systems Recurrent Technical Training

Memo No.: AIR100-14-140-DM24

Regulatory Reference: Title 14 of the Code of Federal Regulations part 183, Representatives
of the Administrator

Policy Reference: FAA Order 8100.8D, Designee Management Handbook

Purpose

This memorandum allows designated engineering representatives (DER) and Organization Designation Authorization (ODA) engineering unit members (UM) who are required to complete Structures and/or Electrical Systems online recurrent technical training in 2014 additional time to complete that training. FAA Order 8100.8D, paragraph 803g, requires that recurrent training be completed within the calendar year it is due. This memorandum extends the time to complete the required online recurrent technical training due in 2014 until March 31, 2015. This memorandum also affords the same extension to FAA personnel subject to Structures and/or Electrical Systems recurrent training requirements under FAA Order 8100.8D, paragraph 201b.

Rationale

New Structures and Electrical Systems recurrent technical training courses were due for release in March 2014, but the respective release dates for these courses were delayed to October and November 2014. This deviation is necessary to ensure those individuals required to complete Structures and Electrical Systems online recurrent training in 2014 have adequate time to complete the required courses.

Qualifications

To be eligible for this deviation, DERs, ODA UMs, and FAA personnel must be due for Structures and/or Electrical Systems recurrent training in 2014. This deviation does not apply to those who were due for recurrent training in 2013, or to the General Session recurrent training requirements. DERs due to complete a General Session in 2014 must have completed that training by December 31, 2014, or they will be placed in suspended status until they complete that training.

This deviation is effective immediately. If you have any questions, please contact Tony Jopling, AIR-140, at (404) 474-5531 or anthony.jopling@faa.gov.
