## Memorandum

Date: April 17, 2014

To: All Manufacturing Inspection Offices

From: James D. Seipel, Acting Manager, Design, Manufacturing, & Airworthiness  
Division, AIR-100

Prepared by: Delegation & Organizational Procedures Section, AIR-142

Subject: Deviation to FAA Order 8100.8D, Designee Management Handbook, Chapter 8,  
for former designees.

Memo No.: AIR100-14-140-DM06

---

This memorandum approves a deviation to FAA Order 8100.8D, *Designee Management Handbook*, paragraph 802(a), which requires former manufacturing designees applying for a new appointment to complete initial training prior to appointment. This deviation allows former Designated Manufacturing Inspection Representatives (DMIR) who were terminated in good standing, and who have maintained their recurrent training requirements, to be appointed without repeating the initial training.

This deviation to Order 8100.8D, paragraph 802(a) is approved for any DMIR applicant that meets the above requirements.

If you have any questions, please contact a member of the Delegation & Organizational Procedures Section, AIR-142, at 202-385-6348.
