

Federal Aviation Administration

Memorandum

Date: August 20, 2014

To: All Manufacturing Inspection Offices
All Aircraft Certification Offices

From: James D. Seipel, Acting Manager, Design, Manufacturing, & Airworthiness
Division, AIR-100 *Bruce Cable*

Prepared by: David Magruder, Surveillance and Oversight Policy Section, AIR-143

Subject: ACTION: Aircraft Certification Audit Information System (ACAIS)
eLearning Management System (eLMS) Training for Aviation Safety Inspectors

Memo No.: AIR100-14-140-GM16

In October 2014, the Aircraft Certification Service is scheduled to transition from its current Certificate Management Information System (CMIS) to the new Aircraft Certification Audit Information System (ACAIS), which is a component of the Aviation Safety Knowledge Management Environment (ASKME). Full implementation of ACAIS is scheduled for October 20, 2014. ACAIS will replace CMIS for all manufacturing inspection activities related to certificate management.

Federal Aviation Administration (FAA) course FAA22000066, Aircraft Certification Audit Information System (ACAIS) Transitional Briefing, will be available in eLMS beginning September 15, 2014. All manufacturing Aviation Safety Inspectors are required to complete this training by January 12, 2015. This training is optional for Aviation Safety Engineers and Flight Test Pilots.

If you have any questions regarding this memorandum or require any additional information, please contact the Surveillance and Oversight Policy Section, AIR-143 at (202) 267-1575.
