Supplemental Type Certificate

Number SA136SO

This certificate issued to RAYJAY Parts LLC
10 Harbor Island Drive
Key Largo, Florida 33037

certifies that the change in the type design for the following product with the limitations and conditions thereafter as specified hereto meets the airworthiness requirements of Part 3 of the Civil Air Regulations.

Original Product – Type Certificate Number: 6A1
Make: Aero Commander
Model: 560A

Description of Type Design Change: Installation of Turbosupercharged GO-480-D1A engines in accordance with FAA Sealed Rajay (formerly Riley) Drawing List No. R0011, Revision C or FAA sealed subsequent revision. NOTE: Model 560A, Serial number 299 only, is also eligible when modified in accordance with Revision A to this document.

Limitations and Conditions: The engines must be previously modified to incorporate turbochargers in accordance with Supplemental Type Certificate No. SE135SO. The approval of this change in type design applies to the basic Aero Commander Model 560A aircraft only. This approval should not be extended to other aircraft of the same model on which other modifications have been made unless it has first been determined that the interrelationship between these various modifications will have no adverse effects on the airworthiness of the aircraft. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission. FAA approved Riley/Rajay Airplane Flight Manual Supplement dated June 9, 1965 is required with this installation.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
